

**What is the census?** It's a survey to gather statistical information using a questionnaire

**Who must fill in the questionnaire?** Everyone, Italian and foreigner, residing in Italy

**Why should you fill in the questionnaire?** Because it's useful to gather precise informations on the living conditions of all residents, to plan policies and services

**What happens if you don't fill in the questionnaire?** Besides being economically sanctioned, who doesn't fill in the questionnaire will be erased by the City's register of residents (anagrafe).

This means you will lose residence, with all its consequences: interruption of the consecutive period of residence to obtain the Italian citizenship, further obstacles to social services (public housing, welfare checks etc.)

**Where can I find the questionnaire?** The questionnaire I sent via mail to all families; you can also find it on-line on the web-site <http://censimentopopolazione.istat.it/>
